OBJECTIVE

Bachelor of Computer Science (Multimedia Computing) graduate with hands-on experience in full-stack web development, software engineering, and ICT support. Skilled in developing interactive web applications, designing database-driven systems, and supporting network infrastructure through technical documentation and troubleshooting. Strong analytical and problem-solving abilities with a passion for building innovative, user-focused software solutions and contributing effectively in collaborative environments.

EDUCATION

Universiti Putra Malaysia, Serdang, Selangor

Bachelor of Computer Science (Multimedia Computing) with Honours

Oct 2022 - Present

(Expected graduation: 2026)

- Current CGPA: 3.34
- Relevant coursework: Data Structures, Introduction to Software Engineering, Artificial Intelligence, Multimedia Information Retrieval, Computer Security, Augmented Reality, Computer Network and Communication, Advanced Programming, Operating system

Universiti Teknologi MARA (UiTM) Campus Jasin, Melaka

Diploma in Computer Science

August 2019 - February 2022

- CGPA: 3.5 | MUET: Band 3.5
- Relevant coursework: Object Oriented Programming, Computer Organization, Fundamentals of Algorithms and Computer Problem Solving, Interactive Multimedia

EXPERIENCE

Akademi Kastam Diraja Malaysia

ICT Intern

Melaka

March 2026 - Aug 2026

- Developed a full-stack web application to support network topology documentation and ICT infrastructure management.
- Assisted in system development, testing, deployment, and maintenance within the ICT Department.
- Produced and maintained network documentation to improve infrastructure management and troubleshooting.
- Performed RJ45 Ethernet cable crimping, cable testing, and basic network installation.
- Provided technical support, including PC setup, hardware installation, software configuration, and troubleshooting.

Amat Murah Duyong

Sales Assistant

Melaka

March 2022 - August 2022

- Assisted customers with product enquiries and purchases.
- Managed inventory and stock replenishment.
- Delivered excellent customer service in a fast-paced retail environment.

PC World

IT Technician Support Intern

Melaka

September 2021 - February 2022

- Diagnosed and repaired desktop and laptop hardware issues.
- Installed Windows operating systems and software applications.
- Configured computer hardware and peripherals, and troubleshoot hardware and software issues.

PROJECTS

Network Topology Monitoring System (NetDiagram)

Internship Project | Akademi Kastam Diraja Malaysia (AKMAL), Melaka

Technologies: React.js, React Flow, Node.js, Express.js, PostgreSQL, Supabase, JWT, Git, Vercel, Render

- Designed and developed an interactive web-based network topology editor for the ICT Department, enabling users to create and manage network diagrams through a drag-and-drop interface.
- Implemented core diagram editing features using React Flow, allowing users to add, connect, edit, and organize network devices while automatically saving diagram data to a PostgreSQL database.
- Developed RESTful APIs, secure authentication, and centralized data management using Node.js, Express.js, JWT, and Supabase.

Sistem Pengurusan Rekod Berpusat (SPRB)

Final Year Project | Universiti Putra Malaysia

Technologies: PHP, MySQL, JavaScript, HTML, CSS, XAMPP, PHPMailer, Telegram Bot API, Git, Hostinger

- Developed a web-based centralized inventory and record management system to digitize manual record-keeping processes.
- Implemented RBAC authentication, OTP password recovery, and CRUD operations using PHP and MySQL.
- Integrated Telegram Bot API for real-time low-stock notifications through a rule-based monitoring system.
- Conducted system testing and deployed the application on a web hosting platform.

3D Atlas: Head Anatomy

Academic Project | Universiti Putra Malaysia

Technologies: Unity, C#, Blender

- Developed an interactive 3D anatomy learning application using Unity to visualize the structures of the human head.
- Implemented 3D model interaction, object labeling, and navigation features to enhance the learning experience.
- Designed an intuitive user interface for exploring anatomical structures in a virtual environment.

LEADERSHIP & INVOLVEMENT

Vice Secretary

2024 – 2025

Multimedia Club, Faculty of Computer Science & Information Technology (UPM)

- Coordinated administrative tasks, meeting documentation, and communication among committee members.
- Assisted in planning and executing club activities and student engagement programmes.

Vice President

2024

Destinasi Kerjaya Ideal Programme, Kolej Canselor (UPM)

- Led the organizing committee in planning and coordinating a career development programme for university students.
- Collaborated with committee members to ensure the successful execution of programme activities.

Facilitator

2024

Kembara Ilmu Bersama Pelajar Orang Asli (KIBPOA)

Collaboration with Universiti Teknologi MARA (UiTM) Seri Iskandar | SMK Ulu Kinta, Perak

- Facilitated educational and team-building activities for Orang Asli students.
- Coordinated food distribution and maintained hygiene standards throughout the programme.
- Collaborated with UiTM Seri Iskandar and committee members to ensure smooth programme execution.
- Contributed to a successful community outreach programme that received positive participant feedback.

Secretary & Facilitator

2024

SULAM: Artificial Intelligence Workshop for Secondary School Students

SMK King George V, Seremban, Negeri Sembilan

- Coordinated programme documentation, schedules, and committee communications to support successful workshop execution.
- Assisted in planning programme logistics and administrative tasks to ensure smooth operations.
- Facilitated hands-on workshops on Artificial Intelligence, including Computer Vision, Natural Language Processing (NLP), Data Science, and Generative AI.
- Guided students during practical sessions and supported overall programme coordination.

TECHNICAL PROFECIENCIES

- **Programming Languages:** JavaScript (ES6+), PHP, SQL, Java, Python, C++, HTML5, CSS3
- **Frameworks & Libraries:** React.js, React Flow, React Router DOM, Vite, Tailwind CSS, Bootstrap, Node.js, Express.js, Axios, Socket.io, PHPMailer
- **Database:** PostgreSQL, Supabase, MySQL
- **Cloud & Deployment:** Vercel, Render, Hostinger
- **Development Tools:** Git, GitHub, Visual Studio Code, XAMPP, npm, PowerShell
- **Design & Productivity Tools:** Canva, Microsoft Word, Microsoft Excel, Microsoft PowerPoint
- **3D & Multimedia Technologies:** Unity, Blender
- **Networking & ICT:** Network Topology Documentation, RJ45 Ethernet Cable Crimping, Ethernet Cable Testing, PC Hardware Installation & Maintenance,
- **Soft Skills:** Problem Solving, Critical Thinking, Analytical Skills, Team Collaboration, Communication, Adaptability, Time Management, Leadership, Attention to Detail

ADDITIONAL INFORMATION

Language

- Malay (Native), English (Fluent)

Certification

- Microsoft Excel Data Analysis – Level 1
 - Organized by Akademi Kastam Diraja Malaysia (AKMAL), conducted by Kolej Komuniti Masjid Tanah.
